GURU ESWAR SAINATH REDDY KUMMITHI

SENIOR ENGINEER

Proddatur, Andhra Pradesh - 516360, India | kummithi.sai00@gmail.com | 9949907910 | LinkedIn

PROFILE

Senior Engineer with 4+ years of experience building large-scale streaming and content aggregation platforms and automation systems. Led frontend development for a React-based streaming TV platform serving 100K+ monthly visitors, and developed Rust-based device services using secure WebSockets and AWS for large-scale device and SDK validation.

AREAS OF EXPERTISE

JavaScript, React JS, Redux, Tailwind CSS
Node JS, Express JS, MongoDB
AWS (Lambda, API Gateway, S3, CloudFront, DynamoDB)
Rust (tokio, tokio-tungstenite, http, reqwest, serde_json, lazy_static)
Jest, WebSockets, JSON, Cypress, Cucumber

PROFESSIONAL EXPERIENCE

Senior Engineer, Tata Elxsi **Sept 2021 to Present**
Bengaluru

Frontend Developer – Streaming TV and content aggregation platform

- Built and maintained scalable UI for a streaming TV platform and smart TV/device content platform that aggregates channels and apps.
- Implemented client-side routing with **React Router** and global state management using **Redux.**
- Integrated **OAuth 2.0 / OIDC authentication flows** for secure user access and device-level content authorisation.
- Optimized responsive layouts for large screens and collaborated with backend/product teams for API alignment.
- Collaborated with backend and product teams to align API contracts and feature delivery.
- Added unit test coverage using **Jest**, improving reliability of UI logic and API integrations

Tech Stack: React, Tailwind CSS, Redux, React Router, OAuth 2.0/OIDC, Jest

Full Stack Developer – Internal Automation Catalogue Platform

- Developed internal platform to catalog automation projects, enabling reuse and faster development.
- Developed **React dashboards** and dynamic forms for project submission and discovery.
- Designed and implemented REST APIs using **Node.js** and **Express.**
- Modeled and optimized **MongoDB schemas** for searchable project metadata.
- Implemented search and filtering features for faster project lookup.
- Deployed frontend on **AWS CloudFront** with restricted access controls, allowing access only through the client VPN / approved network.

Tech Stack: React, Node.js, Express, MongoDB, AWS CloudFront, OAuth 2.0/OIDC, Jest

Software Engineer – Firebolt Automation Platform (Hybrid Open/Closed Source)

- Developed a **Rust-based device extension** for Ripple set-top boxes, enabling device-level automation capabilities, including log capture, screenshots, remote reboot, and command execution.
- Implemented secure **WebSocket pub/sub communication** for real-time device control and telemetry.
- Worked with **Cypress and Cucumber** client framework and javascript based mock firebolt application.
- Deployed services via **AWS Lambda, API Gateway, S3, CloudFront**.
- Extension adopted across **50+ devices across** North America and Europe.

Open-Source Client (RDK Central):

- Ripple : **[GitHub - Ripple Repo]**
- Cypress & JavaScript Test Client: **[GitHub – Cypress Client Repo]**
- Client based 3rd party application: **[GitHub – Thirdparty app Repo]**
- Mock server to replicate Firebolt OS: **[GitHub - Mock Firebolt OS Repo]**

Tech Stack: Rust, JavaScript, Cypress, Cucumber, Jest, WebSockets, AWS Lambda, API Gateway, S3, CloudFront, Linux, CI/CD

Freelancing

Freelance Full-Stack Developer – Client Portfolio Website (Confidential)

- Designed and developed a **responsive portfolio website** for a public figure using **React and modern UI practices**.
- Built modular sections for biography, media, achievements and public engagement.
- Implemented SEO-friendly structure and performance-optimized layouts to improve visibility and loading speed.
- Collaborated directly with the client to gather requirements and deliver a custom visual identity.
- Built a protected admin interface using **JWT token–based authentication**, enabling secure and automated data uploads for gallery, news, and events management.
- Deployed a serverless architecture using **AWS S3, Lambda, API Gateway, DynamoDB, and CloudFront** with CI-based automated deployment.

Tech Stack:

React, Tailwind CSS, React Router, AWS services(S3 bucket, Lamda functions, Api Gateway, DynamodDB, Cloudfront for hosting), CI/CD

EDUCATION

B.E. **Jul 2017 to Apr 2021**
R.L.Jalappa Institute of Technology, Bengaluru

Graduated in Computer Science and Engineering

CGPA: **7.4**

Intermediate **Jul 2015 to Apr 2017**
Sri Chaitanya Junior College, Kurnool

CGPA: **9.35**

10th standard **Jun 2014 to Apr 2015**
Sri Ravindra High School, Proddatūr

CGPA: **9.0**

HOBBIES

Workout, Bike rides, Cooking

LANGUAGES

English, Telugu, Kannada, Hindi
